EDUCATION

Bachelor's Degree - Computer Engineering   Oct 2021 - Jun 2026 (Expected)
Palestine Technical University-Kadoorie
87.2%

Nanodegree Program - AI Programming with Python and TensorFlow   May 2024 – Sep 2024
Udacity and Stichting SPARK

High School
Raba Secondary Girls School   2020 - 2021
98.6%

SKILLS

Technical: **Personal:**

HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, APIs   Self-learning, Team Collaboration, Attention to
Integration.   Detail, Communication

PROJECTS

Ratify - Technical Skills Assessment Platform
Frontend Developer

- Developing a responsive web application for evaluating candidates technical skills using React
- Implementing user authentication, technical assessment tasks, and interview management features
- Creating an intuitive UI with modern design principles for administering coding tests and technical interviews
- Integrating with backend APIs to track candidate performance across frontend and backend skill evaluations
- GitHub: https://github.com/MayarQasrawi/Ratify

EXPERIENCE

AI Engineer Intern   *June 2024 – Oct 2024*

PalSoft   *Online*

- Developed machine learning models to enhance data-driven decision-making processes.
- Collaborated with senior engineers to integrate AI solutions into existing software products.
- Conducted performance evaluation and optimization for deployed AI models.
